

*HOW TO OUTLINE FONTS

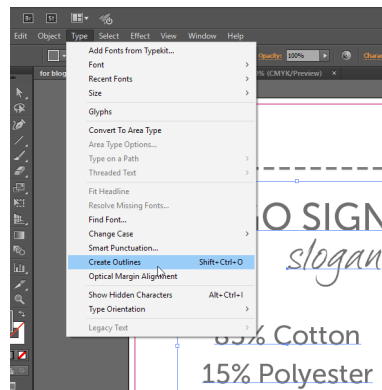

1

Make sure that all graphics are ungrouped, by clicking on them together and with the right mouse click if the 'Ungroup' menu appear, just click on it.

2

Highlight all fonts together with the selection tool. Go to the menu 'Type' on the left upper corner click on 'Create Outlines'. In Corel Draw this option is called 'Convert to Curves'

X NOT ACCEPTABLE

85% Cotton
15% Polyester

V ACCEPTABLE

85% Cotton
15% Polyester

You can see the difference before and after the outlining.

All graphics in the file have to be outlined.
